

HOUSE OF CARDS

VERSE I

You're house of cards will soon be gone
One by one they'll come undone
Thanks to our soldiers who gave for me
Their courage strength and bravery
They entered your land
Shedding their blood and fighting through sand and wind and mud
You invaded our lives oh desert man
And now you're forced to show your hand

CHORUS

You can run but you cannot hide
American spirit will crush your pride
You played your cards and now you've lost
Precious souls paid the highest cost

VERSE II

Our mission bears the ultimate price
Our soldier's lives as the sacrifice
Our nations finest forever changed
In the name of freedom
Their lives re-arranged
House of cards, we'll wait your fall
Answer your phone if you dare
It's our nations call

CHORUS

You can run but you cannot hide
American spirit will crush your pride
You played your cards and now you've lost
Precious souls paid the highest cost

VERSE III

Rest assured it's your final hour
We'll raise the power
For what you put our people through
One by one we'll hunt you all
House of cards we'll see you fall
The winds of war have blown you away
You underestimated the U.S.A.

I'd say it's our finest hour
You're rein in ruins
You've lost your power
