

# LOCO

## Intro: 8 measures

Little hula girls on the shot glass all we need's a little salt & lime  
We can plug in the hot pepper lights and pretend that we're livin' on Key West time  
I can run to the store and get some charcoal buy a tiki torch and fire up the grill  
The whole town wants to know when I'm gonna grow up but you know I never will

Yeah I might be a little bit loco but it keeps me from losin' my mind  
Oh but half insane that's ok babe a little bit crazy's alright

## Break: 4 measures

Nothin' wrong with a little excitement no it makes me forget about work  
'Cause I live by the rule that everything's cool just as long as nobody gets hurt  
Hey I feel like I'm on vacation honey you say the word and we'll go  
'Cause you're getting to me in those cut off jeans and that T-shirt from Sloppy Joes

Hey I might be a little bit loco but it keeps me from losin' my mind  
Oh but half insane that's ok babe a little bit crazy's alright  
Yeah the deep end might be so close oh that I'm hangin' on for dear life  
Yeah I might be a little bit loco baby but a little bit crazy's alright

## Guitar Solo: 8 measures

Hey I might be a little bit loco but it keeps me from losin' my mind  
Oh but half insane that's ok babe a little bit crazy's alright  
Yeah the deep end might be so close oh that I'm hangin' on for dear life  
Yeah I might be a little bit loco baby but a little bit crazy's alright

Yeah I might be a little bit loco but it keeps me from losin' my mind  
Yeah I might be a little bit loco baby but a little bit crazy's alright

## Break: 4 measures

Might be a little bit loco baby but a little bit crazy's alright
