

# RIDE

**Intro: guitar then** 1 2 3 4

She gets in her car and she drives away too fast  
Her dad looks out the window and thinks "this ain't gonna last"  
But if he could only see the woman behind her eyes  
He'd understand why his daughter always flies  
And why she cries **2 3 4 Stop**

This world moves too slow  
Gotta grab my stuff and go before I die  
Yeah say what you will  
But I'm not standing still while I'm alive **2 3 4 Stop**  
Get in I'll drive

**Interlude: 4 measures**

He throws his boots in his bag and he walks out the door  
With his saddle on his back, but it's not a game anymore  
If he gets knocked down, he'll just get up and hop in again  
With destiny on his side he knows that he's bound to win  
And he keeps sayin' **2 3 4 Stop**

This world moves too slow  
Gotta grab my stuff and go before I die  
Yeah say what you will  
But I'm not standing still while I'm alive **2 3 4 Stop**  
Crawl up and ride

**Solo: 8 measures**

From his hospital bed he stares out his window  
Just waitin' for the time when it's his turn to go  
The doctor, he tells him it could be any day  
So he clinches his fist as he slips away  
And all he can say **2 3 4 Stop**

This world moves too slow  
Gotta grab my stuff and go before I die  
Yeah say what you will  
But I'm not standing still while I'm alive **2 3 4 Stop**  
Hold on tight
