

YOU AIN'T DOWN HOME

Intro: 4 measures

You know all the right people
You wear all of the right clothes
You got a snappy little sports car all your own
You got the cool conversation on your high tech telephone
But you got one little problem, baby
You ain't down home

You ain't down home where the people got their feet on the ground
Down home where there's plenty of love to go 'round
You got the cool conversation on your high tech telephone
But you got one little problem, baby
You ain't down home

Interlude: 8 measures

You got a brand new Jacuzzi
All your credit cards are gold
There ain't a high class place in town where you ain't known
You make it all look impressive; yeah you put on quite a show
But you got one little problem, baby
You ain't down home

You ain't down home where the people got their feet on the ground
Down home where there's plenty of love to go 'round

You make it all look impressive, yeah you put on quite a show
But you got one little problem, baby
You ain't down home

You make it all look so impressive, yeah when you're showin' all your dough
But you got one little problem, baby
You ain't down home

There's just one little problem, baby **stop**
You ain't down home
